COMPACT 650 SD

The compact shrink tunnel for small to medium formats.

The double-construction Kallfass ring-nozzle heating system, in the compact 47" hood, targets the heat where it is needed. This ensures a perfect shrinking process with low energy use, which helps to save natural resources.

The figure may show optional equipment. Special paint and tunnel clearance height of 400 mm.

Technical specifications

	Compact 650 SD
Adjustable working height	32 - 35 in.
Tunnel clearance width, height	26 in., 8 in.
Length of the heated tunnel hood	48 in.
Power supply	208 - 480 Volt
Continuously adjustable temperature	up to 190°C/375°F
Transport speed	15 - 90 feet / minute
Installed heating capacity	2 x 4,5 kW

The ring-nozzle heating system ensures uniform heat transfer to the package contents.

Your benefits highlighted

- Perfect packaging results using constantly uniform heat energy transfer to the packaged goods, regardless of the position on the conveyor belt
- Ring nozzle heating technology with integrated air circulating system for efficient energy recovery
- High level of insulation and compact design ensure fast warm-up times
- Easy adjustment of basic parameters (temperature, air volume and package speed) using continuously adjustable controller
- Intelligent technology ensures constant temperature during operation. Energy-intensive temperature fluctuations are prevented
- Carefully selected components, easy to maintain, maintenance-free plastic mesh-belt

Solution in Kallfass quality. Competence in the production of a wide range of products, from individual units to packaging systems to integration into production lines.
